Transforming the
Trent Valley

How to make the Pom Pom

- 1** Cut out the Pom Pom template
- 2** Draw round the paper pom pom template and cut out 2 cardboard rings.
- 3** Hold the 2 cardboard rings together and thread the wool round. Hold the end of the wool against the cardboard and loop the wool ball through the middle, round the cardboard then back through the middle.
- 4** Keep going until the cardboard ring is covered with a thick layer of wool.
- 5** Move some of the wool aside and look for the gap between the 2 cardboard rings. Place your scissors in the gap and start cutting the wool, following the curve of the ring. You may loose some wool at this point, just try cut round as smoothly as possible.
- 6** Once you have finished cutting, use an extra length of wool to tie in the middle. Place the middle of the wool length in the cardboard gap and pull both ends together around the pom pom.
- 7** When secure pull the cardboard rings off and push the pom pom through the centre of the swan. Have each half of the pom pom on each side.
