

at Tucklesholme Nature Reserve

Follow the self-led trail along path to the left of the first Tucklesholme lake.

At each point on the map stop and enjoy an activity.

This Trek will take you approximately 20-30 minutes but feel free to take your time and take in the scenery.

What to bring?

- If you have binoculars, do bring them along with you
- Our downloadable bird spotter sheet

What to wear?

- The site is open to the elements, so we recommend sturdy shoes, warm clothing and waterproofs.

Please follow government guidelines and maintain social distancing on site.

- 1** Busy birds are often hopping from branch to branch here. Can you spot any?
- 2** Our lake is a great place for waterfowl to swim around, but its very big! If you want to get the attention of a duck, we suggest to **quack loudly!**
- 3** Take a moment to sit on the bench and listen to the sounds around you. What can you hear?
- 4** Bugs love to live under logs. The logs here are very heavy! But take a closer look and see if something has been nibbling away at them.
- 5** This site used to be a quarry full of stones and rocks. Can you pick some cool stones and create a face? We will look out for it the next time we visit.
- 6** How far can you see? Hide behind our bird hide and count the birds resting on the bank.
- 7** Woodpeckers like to peck out bugs from trees. They make a knocking sound, can you make the same noise on a log or tree trunk?
- 8** Amongst the trees, is a tree with bark twisted round. It looks like its twirling. When you spot it, do a little twirl or spin to celebrate!
