What do you need:

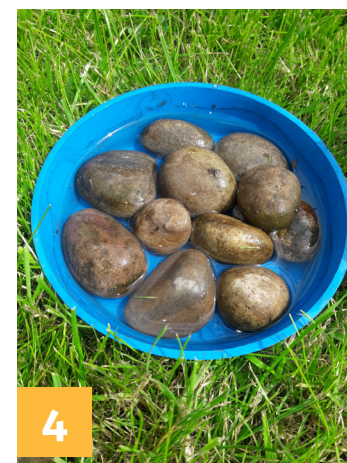

- Shallow bowl, plate or tray
- Pebbles/Stones
- Jug of water

Pebbles and Paddles

Here is how to make a Bee Beach:

- 1 Find a nice location for a bee beach
A sunny spot or next to some wild flowers?
- 2 Place the stones in the plate with little gaps in between
- 3 Fill the plate with water, leaving the tops of the stones above the water (*so the bees have a place to sit*)

- 4 Don't forget to top up the water on warm days!
