

My Wild Window

We have some little wild activities to connect you to nature on your doorstep from inside your home.

Look for shapes in the skies

At sunset look at the sky change colour Take a moment, open the window slightly, breathe some fresh air and listen to sounds from outside.

Place a pinecone on your windowsill

Over time it will open and close.
Watch carefully over a couple of
days to see if there is a pattern with
the weather.

Grow a plant

The window is a great place to start growing plants.
Add a seed to a pot, water it regularly and watch it grow.
